WORK EXPERIENCE

Web Developer Intern

June 2024 - Present

Symbolic Technologies | Kolkata, West Bengal

- Developed a web search engine using Python, Flask, and PostgreSQL, with an administrator panel for managing ads, integrating optimized search algorithms and efficient scalable database queries for fast information retrieval.

[View web app](#)

- Built web scraping bots using Python Scrapy to automate large-scale data extraction, improving the accuracy and efficiency of data collection from multiple sources.
- Developed and deployed a client website using React, integrating 3.js for interactive 3D elements and managing deployment with Nginx for performance optimization and scalability.
